Be it known, that on the day of the date hereof, before me, the subscriber, a Notary Public, personally appeared John E. Deno and his wife Mrs. Eleanor C. Deno, who being duly sworn, according to law, did depose and say that the attached Certificate of Birth reciting the birth of their daughter, Helen C. Deno, at Rupert, Idaho on July 3, 1910 is filed by them for the purpose of having notice of such birth placed on the vital records of the State of Idaho; and that such certificate is filed by them due to the fact that the attending physician, Mr. C.H. Scott, of Rupert, Idaho, has since died making it impossible for him to sign and file such certificate as provided by law.

They aforementioned parties hereto further depose and state that the aforesaid certificate of birth is a true and correct statement of such birth and that they are the lawful parents of said child, Helen, Catherine Deno.

Note:

The birth, recorded in this certificate, occurred years ago when it was the custom on Indian Reservations to record births and deaths in the Agency Records, without a certificate to the State Registrar. Since then this party, after arriving at maturity, has requested a certificate of birth which I have transmitted.

In order to have a safe record for future reference, I have also prepared a copy which I am forwarding to the State Registrar of Vital Statistics, thru the local Registrar of Bingham County.

Dear Mrs. Harris:

Roy
Re: Robert Lee/Harris.

I hereby certify that I attended the above named individual at his birth and that at that time the mother and father were not living together. The grandfather of the child, who was also the father of the child's mother, asked me to register the name as Robert Lee Roy Hasson instead of Harris, which is his true name.

It is my understanding, Mrs. Harris, that you will be obliged to pay a small fee for the change on the records at Boise. I believe this fee is 50¢.

Very truly yours,

H. W. Wilson M.D.

1. The first part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation

$$f(x) = \int_0^x \frac{1}{1+t^2} dt.$$

It is shown that the function $f(x)$ is increasing and concave down on the interval $(-\infty, \infty)$.

2. In the second part, we consider the function $g(x)$ defined by the equation

$$g(x) = \int_0^x \frac{t}{1+t^2} dt.$$

It is shown that the function $g(x)$ is an odd function and that it is increasing on the interval $(-\infty, \infty)$.

3. Finally, we consider the function $h(x)$ defined by the equation

$$h(x) = \int_0^x \frac{1}{1+t^4} dt.$$

It is shown that the function $h(x)$ is an even function and that it is increasing on the interval $(-\infty, \infty)$.

4. The last part of the paper is devoted to the study of the properties of the function $k(x)$ defined by the equation

$$k(x) = \int_0^x \frac{t^2}{1+t^4} dt.$$

It is shown that the function $k(x)$ is an odd function and that it is increasing on the interval $(-\infty, \infty)$.

5. Finally, we consider the function $l(x)$ defined by the equation

$$l(x) = \int_0^x \frac{1}{1+t^6} dt.$$

It is shown that the function $l(x)$ is an even function and that it is increasing on the interval $(-\infty, \infty)$.

UNITED STATES STANDARD CERTIFICATE OF BIRTH

Why births should be registered—There is hardly a relation of life, social, legal, or economic, in which the evidence furnished by an accurate registration of births may not prove to be of the greatest value, not only to the individual but also to the public at large. It is not only an act of civilization to register birth certificates but good business, for they are frequently used in many practical ways, some of which are listed below:

- (1) As evidence to prove the age and legitimacy of heirs;
- (2) As proof of age to determine the validity of a contract entered into by an alleged minor;
- (3) As evidence to establish age and proof of citizenship and descent in order to vote;
- (4) As evidence to establish the right of admission to the professions and to many public offices;
- (5) As evidence of legal age to marry;
- (6) As evidence to prove the claims of widows and orphans under the widows' and orphans' pension law;
- (7) As evidence to determine the liability of parents for the debts of a minor;
- (8) As evidence in the administration of estates, the settlement of insurance and pensions;
- (9) As evidence to prove the irresponsibility of children under legal age for crime and misdemeanor, and various other matters in the criminal code;
- (10) As evidence in the enforcement of law relating to education and to child labor;
- (11) As evidence to determine the relations of guardians and wards;
- (12) As proof of citizenship in order to obtain a passport;
- (13) As evidence in the claim for exemption from or the right to jury and military service.

Statement of occupation—Make some entry in this section for each parent. For a woman whose only occupation is that of home housework, write "housework" in answer to question 23 and "own home" in answer to question 24. For a person engaged in domestic service for wages, however, designate the occupation by the appropriate terms, as "housekeeper—private family," "cook—hotel," etc. For a person who has no occupation whatever write "none."

To be complete, an occupation return must state:

- (14) and (23) The trade, profession, or particular kind of work done.
- (15) and (24) The industry or business in which the work is done.
- (16) and (25) The month and year the person last worked at the occupation.
- (17) and (26) The number of years the person followed the occupation.

In stating the occupation, avoid the use of such indefinite terms as "employee," "worker," "operative," etc. Find out the particular kind of work done and return that, as "spinner," "weaver," etc.

In stating the industry or business, avoid the use of such general terms as "store," "factory," "mill," etc. State the particular kind of store, factory, mill, etc., as "grocery store," "soap factory," "cotton mill," etc.

Distinguish carefully the different kinds of engineers by stating the full descriptive titles, as "civil engineer," "mechanical engineer," "mining engineer," "stationary engineer," etc. Avoid the term "laborer" when a more precise statement of occupation can be secured. Do not use the word "mechanic," but give the exact occupation, as "carpenter," "painter," "machinist," etc. Distinguish carefully between "retail merchants" and "wholesale merchants." A person who sells goods should be called a "salesman" and not a "clerk."
